

# Lightbox in cmsimple installieren

## 1. Im Header vom **Template Java-Script** hinzufügen:

```
<script type="text/javascript" src="js/prototype.js"></script>
<script type="text/javascript" src="js/scriptaculous.js?load=effects,builder"></script>
<script type="text/javascript" src="js/lightbox.js"></script>
```

## 2. Ebenso im Header vom **Template** den **Css Link**

```
<link rel="stylesheet" href="css/lightbox.css" type="text/css" media="screen" />
```

## 3. Dann Pfade im **Template** anpassen

```
<?
<!DOCTYPE HTML PUBLIC "-//W3C//DTD HTML 4.0 Transitional//EN" "http://www.w3.org
/TR/REC-html40/loose.dtd">
<html>
<head>
<script type="text/javascript" src="./lightbox/js/prototype.js"></script>
<script type="text/javascript" src="./lightbox/js/scriptaculous.js?load=effects,builder">
</script>
<script type="text/javascript" src="./lightbox/js/lightbox.js"></script>
<link rel="stylesheet" href="./lightbox/css/lightbox.css" type="text/css" media="screen"
/>
<?php echo head();?>
</head>
<body bgcolor="#BDC0A9" background="<?php echo $pth['folder']
```

(Also vor src="js einfügen: ./lightbox/)

## 4. Lightbox für ein einzelnes Bild/mehrere Bilder **aktivieren**:

```
<a href="images/image-1.jpg" rel="lightbox" title="my caption">image #1</a>
<a href="images/image-1.jpg" rel="lightbox [namedergalerie]" title="my caption">image #1</a>
```

5. Falls closelabel.gif und loading.gif nicht angezeigt werden , die Pfade in der **lightbox.js** anpassen:

```
//  
LightboxOptions = Object.extend({  
  fileLoadingImage: 'lightbox/images/loading.gif',  
  fileBottomNavCloseImage: 'lightbox/images/closelabel.gif',
```

6. Eindeutschen:

- die Bilder closelabel.gif, nextlabel.gif, und prevlabel.gif durch deutsche Pendants ersetzen
- Die Lightbox.js öffnen und nach dem Textblock "Image x of x" suchen – drei Zeilen darunter die Wörter Image und of in Bilder und von übersetzen

```
58  
59 // When grouping images this is used to write: Image # of #.  
60 // Change it for non-english localization  
61 labelImage: "Bild",  
62 labelOf: "von"  
63 }, window.LightboxOptions || {});  
64
```
